

LEXON Jumbo Tape Winders

For Raffia & Rope Products

Jumbo Tape Winders

Jumbo Tape Winders are designed to produce bigger packages of heavy denier tapes used in Raffia and Rope industry. These rugged versions of inverter driven tape winders are compatible to work with modern tape extrusion plants and high speed wide width flat looms. Traverse cam is made from hardened steel for a long life and the winding tension is adjustable through a spring loaded dancer arm. High output, optimum winding quality, low power consumption and lower maintenance are the salient features of Jumbo Tape Winders. The multiple deck construction offers space saving.

Models L 250 M, L 300 M Jumbo Tape Winders are designed for producing large packages of flat, folded, multiple or fibrillated Raffia tapes for weaving heavy and wide fabrics on flat looms. These models are available in structures of 12 winders each in a layout of 4 tiers.

Models L 303 D, L 306 D, L 330 M, L 340 M Jumbo Tape Winders are designed for producing large packages of flat, folded, crushed or fibrillated tapes for ropes and twines. Package length of 300 mm, outer diameters up to 400 mm and a denier range up to 1,00,000 are available in these models. Packages weighing from 8 to 24 kg can be produced on above models. These models are available in structures of 4 to 12 winders in layouts of 2, 3, 4 tiers.

For Raffia & Rope Products

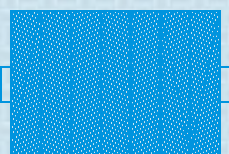

TECHNICAL DATA

Product	Raffia Tapes	Raffia Tapes	Danline Yarns	Rope Tapes
Model	L 250 M	L 300 M	L 303 D/L306 D	L 330 M/340 M
Traverse	250 mm	300 mm	300 mm	300 mm
Outer dia	280 mm	300 mm	300 mm	300/400 mm
Denier**	400 to 3000	400 to 3000	3000/6000	Max. 100000
Speed m/min	200-425	200-425	100-200	80-160
Package wt.	8-10 kg.	12 kg.	12 kg.	12/24 kg.
Speed control	3 phase frequency inverter			
Wind ratio	Preselected using timer belt pulleys			
Tension adjustment	Adjustable spring loaded dancer arm			
Core cube	90 ID x 104 OD x 270/330 mm			
Yarn	Flat, folded, multiple, fibrillated and crushed tapes			

* Special versions on request

** Maximum values may not be combined
